

CITY OF EASTON

STRATEGIC MANAGEMENT PLANNING PROGRAM PROPOSAL AND FIVE-YEAR FINANCIAL PLAN

REQUEST FOR PROPOSAL – Q&A

To ensure a fully transparent RFP process, the City of Easton is posting questions received from potential respondents along with our answers. Information is updated as it comes in and is sorted by date of inquiry. The link to this Q&A document has been shared with all potential respondents.

10/30/24

- 1. Have you been awarded the DCED funds to proceed or have you recently applied? [We are having regular conversations/email exchanges with our DCED rep re: the program and have provided them with our RFP (which they've reviewed and you've received), as well as Easton City Council's resolution approving moving forward with the program. We are finalizing the EAS and hope to have that to DCED shortly]
- 2. Have you changed fiscal software in the last 5 years? What is your current system and what was your previous or future system(s), if any? [We have been on Freedom Systems since ~ 2015-2016 and had been using it for GL, AP, Utility Billing (UB) and RE Taxes. Between 2020 & 2021, we switched our Utility Billing and RE Taxes to Diversified Technologies. With that said, we are currently in negotiations with OpenGov to move virtually all of our 'modules' - GL, AP, UB and RE Taxes – to their platform (we already use their licensing and permitting platform, as well as their asset mgt module, Cartegraph)]
